Product Evaluation Program Awareness

Ben Johnson, PE

Product Highlight (Approved)
Pi-Lit Sequential Barricade-style Lamp

- Pi-Lit Sequential Barricade-style Lamp is a sequentially-flashing, radio-linked warning lamp which can be secured to the top of existing barrels and barricades.

- These lamps help improve the visibility and safety of the work zone by illuminating barrels and drawing drivers' attention to the new traffic pattern.

Product Highlight (Under Evaluation)
RenewWrap ESR

- RenewWrap ESR is a composite system consisting of high-strength glass or carbon fiber fabric and an epoxy saturating resin.

- When combined, the fabric and resin wrap around existing concrete structures to provide additional strength and protection.
